

# The Bright New Future Roadshow

and the

# Inspiration Eco station

A new concept in environmental education, the Bright New Future Roadshow can come to your school or event to provide environmental education through interactive workshops, games, entertainment, ideas and activities.

Our team consists of a group of amazing environmental educators who are passionate about spreading their knowledge with imagination and inspiration. Adapted for the audience our aim is to show how we can all help reduce the negative effects of Climate Change by making small changes in our everyday behaviour. This is a serious message but delivered with warmth and humour through music, stories, drama and play.

**Our mission is to advance the education of the public in the conservation, protection and improvement of the physical and natural environment, in particular by educating the public about how to adopt an environmentally friendly lifestyle and improve their ability to reduce the negative impact on the environment.**

Available for public events and schools  
FREE thanks to a grant!

To learn more, whether you would like us to visit a school, or form part of a bigger event, please contact:

## Our roadshow offers

**Inspiration Eco Station** – 1974 retrofitted milk float with a colourful adaptable display, including conversations, music and games! Topics can include eco home and garden, grow your own, food choices, clean energy, green careers, planet friendly clothes, waste reduction, the bee pollination art trail, repairing and upcycling and much more.....

**Eco Gameshow** – Using a colourful wheel of eco fortune explore subjects which music, stories and games. We also play the great green inventor game with an antique bingo machine.

**Woodland Theatre lorry** - Shows communities how they can plant a woodland theatre in their parish. The lorry is a mobile art gallery showing the evolution of Planet Earth with a woodland stage on Includes a mobile theatre of 25 small native trees in tubs showing the importance of biodiversity. Through the food chain games, poetry, performances and talks people learn how we can work with nature for a sustainable future.

**Biomimicry** - Learning from nature how to live in harmony and replicate what works, helping us solve complex problems and share an exciting new world of possibilities.

### What's on Offer?

**Schools** - contact us to discuss a tailor-made programme for your school, other sessions can be seen here [www.sussexgreenliving.co.uk/green-education/](http://www.sussexgreenliving.co.uk/green-education/)

**Event organisers** - select a number of roadshow attractions to suit your audience and the space available. This might be the Inspiration Eco Station on its own, or you can choose from a 'pick n mix' of interactive performances and activities.

It is like a pop-up mini environmental fun festival. The lorry and float have awnings if required for rain or shade, providing a covered and well-ventilated workshop or demonstration area. We own a 28ft x 38ft marquee which can be booked for community events, contact us for a quote.
